## TECHNICAL SKILLS

---

**Languages:** JavaScript, TypeScript, C#, HTML5, CSS3, SASS/SCSS

**Frameworks:** Next.js, ASP.NET Core, TailwindCSS

**Libraries:** React, Styled Components

**Database Technologies:** MySQL, PostgreSQL, MS SQL Server, Entity Framework, Prisma

**Architectural Patterns:** MVC, MVVM

## EXPERIENCE

---

### RankGuess

February 2023 – Present

*React, Next.js, TypeScript, TailwindCSS, MySQL, Prisma* [rankguess.com](https://rankguess.com) | [github.com/LucasWinkler/rankguess](https://github.com/LucasWinkler/rankguess)

- Developed a full-stack web game that allows players to pick their favourite game and guess the rank of user-submitted footage daily
- Leveraged Next.js for search engine optimization and an enhanced user experience, utilizing both server-side and client-side rendering techniques to increase the page loading speed and user interactivity
- Incorporated TypeScript to enhance the project's code maintainability and reduce the likelihood of type errors
- Implemented Google OAuth using NextAuth to save user statistics and track user submissions
- Utilized Amazon S3 to store user-submitted video files and used the YouTube API to upload them to the RankGuess channel, further promoting user engagement

### Portfolio Website

October 2022 – December 2022

*Vite, HTML5, CSS3, SCSS, JavaScript*

[lucaswinkler.dev](https://lucaswinkler.dev) | [github.com/LucasWinkler/personal-site-v3](https://github.com/LucasWinkler/personal-site-v3)

- Designed and developed a responsive and accessible portfolio website using Vite to speed up the development process and optimize the build
- Implemented responsive design principles to ensure that the website looks great on different device sizes, improving accessibility and user experience
- Used HTML5 and CSS3 with BEM methodology to structure the website's layout, ensuring a clear and organized codebase

### TurboGames

October 2019 – November 2019

*ASP.NET Core, C#, MSSQL, HTML5, CSS3*

[tbstore.azurewebsites.net](https://tbstore.azurewebsites.net) | [github.com/LucasWinkler/TurboGames](https://github.com/LucasWinkler/TurboGames)

- Collaborated with a team of classmates to design and develop a virtual game store using ASP.NET Core
- Utilized code-first design principles to create the database schema, ensuring efficient data storage and retrieval
- Implemented secure user authentication and authorization using ASP.NET Core Identity, protecting sensitive user data and ensuring a safe and reliable user experience
- Leveraged Razor Pages to build a responsive and dynamic front-end interface, enabling users to browse and purchase games with ease

## EDUCATION

---

### Advanced Diploma in Computer Programming and Analysis

September 2017 – April 2020

*Conestoga College*

*Kitchener/Waterloo, ON*

## EXPERIENCE

---

### Crew Member

March 2017 – November 2021

*Wendy's | Quicker Foods Inc*

*Cambridge, ON*

- Demonstrated ability to work efficiently in a fast-paced environment, while maintaining focus on customer service and food quality
- Successfully operated the grill, preparing food items to customer specifications in a timely manner
- Developed strong time management skills by balancing multiple tasks and priorities, such as managing customer orders, cleaning tasks, and restocking supplies
- Collaborated effectively with team members to ensure a smooth and efficient workflow during busy shifts
- Learned to work with different personalities and communication styles to maintain a positive and productive work environment
- Developed problem-solving skills by resolving customer complaints and addressing unexpected challenges during shifts
